8-Pin TO-3 Socket

FEATURES

- LOW CONTACT RESISTANCE
- CLOSED CONTACT ENDS
- GOLD-PLATED INNER CONTACTS
- -55°C TO +150°C TEMPERATURE RANGE

DESCRIPTION

The 0804MC is a high quality socket designed for use with Burr-Brown's 8-pin TO-3 type products such as the OPA541 and OPA512.

Although not required for use with these products, the 0804MC socket makes interchanging parts easy, especially during design and testing. Its rugged inner contacts provide positive insertion and low contact resistance. Closed contact ends prevent solder and flux contamination of the internal contacts.

The socket body is molded of glass-filled polyester and incorporates counter-sunk mounting holes and hex-nut retaining feature. It accommodates a variety of mounting hardware and mechanical designs.

Contact Resistance: 0.02Ω Typ

Outer Contact: Brass
200μ inch Tin over 100μ inch Nickel Plate

Inner Contact: BeCu
30μ inch Gold over 50μ inch Nickel Plate

Socket Body: Glass-Filled Polyester, 94 V-0 rating

Operating Temperature Range: -55°C to +150°C

The information provided herein is believed to be reliable; however, BURR-BROWN assumes no responsibility for inaccuracies or omissions. BURR-BROWN assumes no responsibility for the use of this information, and all use of such information shall be entirely at the user's own risk. Prices and specifications are subject to change without notice. No patent rights or licenses to any of the circuits described herein are implied or granted to any third party. PACKAGING INFORMATION

ORDERABLE DEVICE	STATUS(1)	PACKAGE TYPE	PACKAGE DRAWING	PINS	PACKAGE QTY
0804MC	ACTIVE			0	50

(1) The marketing status values are defined as follows:

ACTIVE: Product device recommended for new designs.

LIFEBUY: TI has announced that the device will be discontinued, and a lifetime-buy period is in effect.

NRND: Not recommended for new designs. Device is in production to support existing customers, but TI does not recommend using this part in a new design.

PREVIEW: Device has been announced but is not in production. Samples may or may not be available.

OBSOLETE: TI has discontinued the production of the device.

IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. Customers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All products are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its hardware products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by government requirements, testing of all parameters of each product is not necessarily performed.

TI assumes no liability for applications assistance or customer product design. Customers are responsible for their products and applications using TI components. To minimize the risks associated with customer products and applications, customers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any TI patent right, copyright, mask work right, or other TI intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information published by TI regarding third-party products or services does not constitute a license from TI to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. Reproduction of this information with alteration is an unfair and deceptive business practice. TI is not responsible or liable for such altered documentation.

Resale of TI products or services with statements different from or beyond the parameters stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.
