

TELCO Connector Interface Modules

Data Sheet 1379B

April 2005

Features

- Connect to 50-way TELCO cables
- DIN-rail mounted with discrete screw connection
- Jack screw option also available
- Compact design

Description

The TELCO Connection modules provide discrete screw connections for each pin of a 50-way TELCO connector. Standard 50-way TELCO cables can therefore be easily disconnected without any wiring errors on the field side of the connection. The modules are ideally suited for all applications where a quick connection is required to a TELCO cable.

Applications that would benefit from this installation method include test and measurement, communication, and industrial applications. The screw connector used allows for 30 to 12 AWG wire sizes and can be easily disconnected with a standard blade screw driver.

Table 1. TELCO Specifications

Technical Data	
Operational voltage	60 V dc
Current rating	1 amp per point
General Data	
Wire size	#30-12 AWG
Operating temperature	-20°C to +50°C (-4°F to +122°F)
Dimensions	
Height	2.30" (58.5 mm)
Width	5.76" (146.3 mm)
Depth	3.03" (77.0 mm)

Ordering Information

<u>Part Description</u>	<u>Part Number</u>
50-Pin TELCO Modules	
FLKM 50-TEL/S	56 00 86 6
FLKM 50-TEL/B	55 41 23 4
Module with Jack Screws	
FLKM 50-TEL/B-2JS	56 00 86 5
FLKM 50-TEL/S-2JS	56 02 74 2

Note: S = Male connector
 B = Female Connector
 2JS = 2 Jack Screws
