# Kux̌oN <br> 25PS, 42PS, 44PS, 45PS and 46PS Series Pressure Switches 

## Key Features

- SPST or SPDT switch with normally open or closed contacts
- Electrically rated to 600 Vac (44/45PS)
- High cycle life capability (42/44PS)
- Factory calibrated pressure setpoints from vacuum to 750 psig
- Snap-acting stainless steel hermetically sealed sensor
- Available with environmentally sealed switch
- High current capability

The 25PS series is an automatic reset pressure switch designed to meet a broad variety of application requirements. This series is avail-
able in SPST and SPDT, offers a variety of pressure settings, port fittings and electrical connections.

## Applications

This line of pressure switches is designed for direct control of motors and other demanding loads requiring precise pressure settings.

Extended electrical capacities and life cycles, in both environmentally sealed and unsealed configurations, encourage usage in the most rigorous fan cycling and high/low pressure protection applications.

The 46PS pressure switch is capable of breaking 2 amp loads at 480 Vac
for 2.5 million cycles. $\dagger$ In applications such as split room air conditioning systems, the 46PS as a head pressure control can result in significant cost savings when used instead of a pilot duty switch and relay.

## Operation

The snap-acting stainless steel diaphragm reverses its curvature when pressurized to a customer specified value. When the disc snaps, it opens or closes a set of electrical contacts by means of a transfer pin. Resetting the switch occurs automatically when pressure drops below a preset value.

Product Selection Matrix

| Switch Life Cycles | Application Voltage | Environmenta Package | M odel Number - Termination |
| :---: | :---: | :---: | :---: |
| 250,000 | 480-600 Vac | Sealed | 44PS - Wire Leads |
|  |  | Unsealed | 44PS - 1/4" Quick Connects |
|  | $28 \mathrm{Vdc}-240 \mathrm{Vac}$ | Sealed | 44PS - Wire Leads |
| 100,000 |  | Unsealed | 42PS - Wire Leads or 1/4" Quick Connects |
|  |  | Sealed | 45PS - Wire Leads |
|  | 480-600 Vac | Unsealed | 45PS - 1/4" Quick Connects |
|  | $28 \mathrm{Vdc}-240 \mathrm{Vac}$ | Sealed | 45PS - Wire Leads |
| 2,500,000 $\dagger$ |  | Unsealed | 25PS - Wire Leads or 1/4" Quick Connects |
|  | 480 Vac | Sealed | 46PS - Wire Leads |
|  |  | Unsealed | 46PS - Wire Leads or 1/4" Quick Connects |
|  | $120 \mathrm{Vac}-240 \mathrm{Vac}$ | Sealed | 46PS - Wire Leads |
|  |  | Unsealed | 46PS - Wire Leads or 1/4" Quick Connects |

†Qualified by application current. Requires $\mathrm{TI} /$ customer specification closure and validation testing before application approval.

## Typical Dimensional Drawings - 25PS, 42PS, 44PS, 45PS, 46PS

Leaded Construction

Design Specifications - 25PS, 42PS, 44PS, 45PS, 46PS
Operating Pressure: Vacuum to 750 psig
Burst Pressure: 5000 psig
Life at rated Current: 100,000 Cycles (25/45PS)
250,000 Cycles (42/44PS)
2,500,000 Cycles (46PS) $\dagger$
Dielectric Strength: 750 Vrms across open contacts
1554 Vrms terminals to fitting (25/42PS)
2200 Vrms terminals to fitting (44/45/46PS)
Ambient Temperature: $-20^{\circ} \mathrm{F}$ to $150^{\circ} \mathrm{F} /-28.9^{\circ} \mathrm{C}$ to $65.6^{\circ} \mathrm{C}$ (Leaded) $-40^{\circ} \mathrm{F}$ to $275^{\circ} \mathrm{F} /-40^{\circ} \mathrm{Cto135}{ }^{\circ} \mathrm{C}$ (QuickConnect)

Fluid Temperature: $-65^{\circ} \mathrm{F}$ to $275^{\circ} \mathrm{F} /-53.9^{\circ} \mathrm{C}$ to $135^{\circ} \mathrm{C}$
Agency Approvals: UL Recognized File No. SA995
U.S.Guide No. SDFY2 / Canada No. SDFY8

PED CE 0035 Module B/D
ENEC Certified
IP67 (Leaded)
